Description:

This test case verifies the functionality of entering and saving shipping address details during the checkout process on the ASOS website.

Preconditions:

1. The user has access to a supported web browser.
2. The user is logged in to their ASOS account.
3. The ASOS website is accessible and functional.
4. One or more products have been added to the cart.

Steps to reproduce:

1. Click on the cart icon or link in the header to view the shopping cart.
2. Verify that the cart page displays the added product, along with its name, price, quantity, and subtotal.

Expected results:

- * The added product is accurately listed with its name, price, and quantity.
- * The subtotal is calculated correctly based on the selected quantity and price.

Steps to reproduce:

3. Click the "Checkout" or "Proceed to Checkout" button.

Expected results:

The user is directed to the checkout page.

Steps to reproduce:

4. On the checkout page, locate and verify the "Shipping Address" section.

Expected results:

The section provides fields for entering the shipping address details, including first name, last name, address line 1, address line 2 (optional), city, county, and postcode.

Steps to reproduce:

5. Enter valid shipping address details in the respective fields.

Expected results:

- * The entered address details are accurately displayed in the fields.
- * No error messages or warnings are displayed.

Steps to reproduce:

6. Optionally, modify or correct the entered address details and ensure they are updated correctly.

Expected results:

The modified address details are updated accurately in the respective fields.

Steps to reproduce:

7. Review the entire shipping address section for accuracy and completeness.

Expected results:

All entered shipping address details are accurate and complete.

Steps to reproduce:

8. Click the "Deliver to this address" button to proceed to the next step of the checkout process.

Expected results:

The user is able to proceed to the next step without errors.

Postconditions:

The user has successfully entered and verified accurate shipping address details, preparing to proceed with the remaining steps of the checkout process.

Notes: This test case focuses on entering and verifying shipping address details. Additional test cases can cover scenarios such as selecting saved addresses, using an address autocomplete feature, and handling invalid address entries.
