<p>Description:</p> <p>This test case verifies that the selected products, quantities, and prices displayed in the shopping cart on the ASOS website are accurate and consistent with the user's selections.</p> <p>Preconditions:</p> <ol style="list-style-type: none">1. The user has access to a supported web browser.2. The user is logged in to their ASOS account.3. The ASOS website is accessible and functional.4. One or more products have been added to the cart.	
<p>Steps to reproduce:</p> <ol style="list-style-type: none">1. Navigate to the ASOS website (https://www.asos.com/).2. Search for a product using the search bar or navigate to a category (e.g., "Women," "Men," "Accessories").3. Select a product by clicking on its image or name.4. On the product page, verify the product details, including name, price, and size (if applicable).5. Click the "Add to Bag" button. <p>Expected results:</p> <p>A confirmation message appears, indicating that the product has been added to the cart.</p> <p>The cart icon or link in the header of the website displays an updated item count, reflecting the added product.</p>	
<p>Steps to reproduce:</p> <ol style="list-style-type: none">6. Click on the cart icon or link in the header to view the shopping cart.7. Verify that the cart page displays the added product, along with its name, price, quantity, and subtotal. <p>Expected results:</p> <ul style="list-style-type: none">* The added product is accurately listed with its name, price, and quantity.* The subtotal is calculated correctly based on the selected quantity and price.	
<p>Steps to reproduce:</p> <ol style="list-style-type: none">8. Review the cart contents for accuracy, comparing the displayed product details, quantities, and prices with the user's selections. <p>Expected results:</p> <p>The displayed product details, quantities, and prices match exactly with the user's selections.</p>	
<p>Steps to reproduce:</p> <ol style="list-style-type: none">9. Modify the quantity of a selected product in the cart and update the cart. <p>Expected results:</p> <p>The cart updates with the new quantity, and the subtotal is recalculated correctly.</p>	
<p>Steps to reproduce:</p> <ol style="list-style-type: none">10. Remove a product from the cart and confirm the removal. <p>Expected results:</p> <p>The selected product is removed from the cart, and the cart total is updated accordingly.</p> <p>Postconditions:</p> <p>The user has verified that the products, quantities, and prices in the cart are accurate and consistent with their selections.</p> <p>Notes: This test case focuses on verifying the correctness of product details, quantities, and prices in the cart. Additional test cases can cover scenarios such as adding products with different attributes (sizes, colors), applying discounts, and verifying the impact of changes on the cart total.</p>
